<u>Question</u>	<u>Answer(s)</u>
I have a simple question of.....how do you expect parents that are the only one in the home, that aren't able to be with their children on the days that it is virtual?	live answered
What About BOCES?	live answered
There are 2 opinions essentially. One, I feel it's safe to send my child into the school. And two, I do not feel safe. Your plan does not give those who do not feel safe an option. I am being forced to either homeschool, which I don't feel is adequate, or pay tuition to another school for out of district learning. What about those who have doubts that young children will have a difficult time following procedure. You've provided no options. And I've been told you won't share curriculum.	live answered
